PROFILE

Greetings! I'm dynamic and self-taught Software developer with two years Academic project experience, having successfully completed over 50 projects. I am passionate about sharing knowledge and fostering learning environments. Eager to apply my expertise in a collaborative team setting, contributing to impactful projects while continuing to grow professionally in the ever-evolving realm of software development.My experience includes designing, developing, and maintaining web and desktop applications using technologies like ASP.NET, .NET Core, and Entity Framework.I have a strong background in database development and management, with proficiency in SQL, including writing complex queries, stored procedures, triggers, and optimizing database performance. My work often involves integrating backend systems with databases to ensure seamless functionality.

I am passionate about creating high-quality, maintainable code and have experience working in agile environments, collaborating closely with cross-functional teams to deliver projects on time. I continuously stay updated with the latest industry trends and technologies to ensure the solutions I develop are modern and effective.

WORK EXPERIENCE

Zari Taraqiati Bank Limited
Team Member-CAT-III /OG-II

2025 - PRESENT

- I worked as a Team Member in the Audit Team of the Corporate Audit Department, where I was responsible for conducting comprehensive audits to evaluate the effectiveness of internal controls, compliance with policies, and overall operational efficiency. My role involved planning and executing audit procedures, analyzing financial and operational data, and identifying areas of risk or non-compliance.

2016-2024

- I worked as an Officer in the Implementation & Coordination Unit of the Corporate Audit Department, where I was responsible for supporting the effective execution of audit strategies and ensuring seamless communication across various teams.

I also practice with startups as honorary.

Realitai software solution
(**Real Solutions Islamabad**)
https://realitai.net/
Teacher/Developer

2024 - 2024

- I teach HTML, CSS, and JavaScript at a learning department in Realit, helping students build strong foundational web development skills. I also introduce them to generative AI, exploring its concepts and practical applications.

GigaSquad (**MaryLand USA**)
https://gigasquad.net/
sd3(Tech Lead)(Remote)

2023-2024

- I was led development teams, ensuring the delivery of high-quality software solutions while mentoring engineers.
- I was oversaw technical projects, provided strategic guidance, and fostered innovation within the team.
